1:09:32 – respondent states that “*the evidence pilled up out and then boom ... it hit [respondent] crystal clear that [petitioner] Christina was sent after [respondent] to corrupt [respondent's] work*” and respondent further states that he believes petitioner is a “*controlled opposition sent after him.*”

1:12:08 – respondent states that “... *this is how we are targeted ... as source players ... to penetrate light into darkness.*”

(c) Third video by respondent (<https://www.youtube.com/watch?v=6iOKP1IP6Kg>) and removed by respondent before YouTube could make a decision on petitioner's claim (attached) against the video, but downloaded by petitioner to document respondent's criminal behavior against petitioner, where he makes threats of physical harm against petitioner, which can be watched/heard beginning at minute 17:20 of the video, where respondent states that he, the respondent, “will give [petitioner] an ass whopping that [petitioner] will never forget.” → <https://youtu.be/cv7ekYldw0?t=1040>

Hello!

My name is Christina Breault and I recently found you on YouTube, a couple or so days ago, and I'm totally amazed by the information you share on your videos, namely transgenderism, among other things. I'm aware of some of the things you speak about (such as Source and this fake world we're entrapped in) but I was not aware of ALL these people being transgenders! I was literally shocked, but, somehow, not really, if you know what I mean.

I was born in Brazil but have been living in the US most of my life. I'm 58 years old and I'm trying to get by with services such as hand reading and vedic astrology, being the first my preferred and most popular service. I'm creating a palmistry course in Portuguese, which I'm hoping to bring me some financial relief, as I so desperately need. I haven't been able to find a job since I was laid off from my government contract in 2012, and I suspect I have been blacklisted somewhere (because I shared my views with my government colleagues and even got involved in a legal battle with one of them as a witness to her abuses by then our mutual boss and that's why I suspect I've been "black listed" somewhere unknown to me). Every single job I apply for, nobody calls me, and this is going on since 2012. So, I found financial solace in palmistry and astrology services, which I always enjoyed and had an interest in these subjects. Having said that, it got my attention when you mentioned in your latest video (the red pill) about selling life insurance. I have a "small" crowd of followers, but most of them are Brazilians, some live in the US and other parts of the world, but most in Brazil. Are these folks a potential clientele? I have no experience in sales and in fact I kinda suck at it but somehow I feel life insurance wouldn't be that hard to sell. What do you think?

Cheers!

Sorry to bother you, but I'm sort of hooked onto your information and I just came across your books on Amazon. I would love to invite you to post on my blog, in Spanish as I perceive you're fluent in it. My blog is in Portuguese but I'm sure the audience there (mostly Brazilians, lots of Portuguese folks from Portugal and a few Spanish speakers) will read and not only appreciate your information but also learn profound truths from. My website (where I'm the webmaster and also author) works as "social media" where I can create a group just for you. I also have courses there, where you would be also welcome to post courses, if you wish. I'm addicted to truth and that's probably what attracted me to your YouTube channel.

Let me know. Cheers!

Oh you're more than welcome, Agbe! Love to have you there!

In order for you to upload videos I need to install a plugin to the website but there is a limit to 1GB files (I think ... need to confirm that). If you want to share links of videos already posted somewhere, that you can do freely on your profile. Let me check on the plugin for video uploading and I'll let you know when that's done. You can upload photos to your profile.

## EXHIBIT 2

Hi Agbe,

I was looking into the uploading of video files and unfortunately that's not possible via the dashboard of the site itself (meaning, pt.ilumina.pub) and it has to be done by accessing WordPress.com, if you have an account with them. Since I haven't done this for any other user before, I'm assuming you would have to login to your WordPress account and my site (pt.ilumina.pub) will likely be listed there, for you, as a site where you are member. You would then click on that site, go to media (on the left column) and then videos (at the top) and upload there, if I make you an author on the site. As of now, you're a registered user with the ability to use the site dashboard to post things on your profile page only. If you want the ability to post blog postings and videos, I'll have to upgrade you as an author on the site but it doesn't end there for video postings and you will have to go through WordPress.com to do that (and I explain more below). To avoid all this, I can give you access to my Google Drive where you can post files (such as video, word, jpgs, etc.) and then I can create a posting for you, including the video (if you wish) using these assets. Or, the other way around, would be you giving me access to a folder in your Google Drive where I can go and grab the assets you wish me to add to a blog posting (such as the text, images, video file, etc.) and assign you as the author of the posting.

I use VideoPress (provided by WordPress to their paid members) as my video hosting and the account is connected with my site pt.ilumina.pub, but I don't use the site to upload video files (as WordPress does not allow it to be done that way). I use [WordPress.com](#) (which connects my account to my site) to upload video files and then the video files I upload (at [WordPress.com](#)) show up in my media library within the pt.ilumina.pub site. I then embed these video files into a blog post, or in my [video library](#) as a stand alone video posting. VideoPress does not perform very well with video files that are larger than 1.5 Gigabytes (or 1,500 Megabytes). I don't believe I'm limited in the space to upload video files but I know for sure I can never upload a video file that's larger than 1.5 GB and if I try, I lose connection to them before the file can finish uploading, having to start all over again just to lose the connection again and again.

What I had in mind was for you to share things you already have posted on the internet on your profile page, which gives you the ability to add images to the postings in your timeline/feed, or PDFs, if you wish. If you want more than that, then we need to go through one of the routes suggested above. Let me know which you prefer.

Good evening Christina,

Let's take the Google Drive method. I'll play with a bot to figure it, but I think that would be the easiest way. I don't know if you know, but I have a lot of cideos: nearly 700, mostly because the book recordings took up space.

Okay. Just keep in mind that Google Drive, for free users, only allows up to 13 GB of space, I believe, but we can work that out in different ways (1. uploading, doing the work with it and then deleting the file to make room for others; 2) spread among different free accounts; 3) placing the files everywhere it's free, like at dropbox, etc.).

Another way also is creating a LBRY.TV account, connecting it to your YouTube channel and let them mirror your entire channel there at LBRY.TV. Once that's done, I can download your video files from there as they make that easily available to all their users (I have an account with them, but I deleted all my videos from there since I created my own video library, where I want my content to be exclusively posted).

Just let me know whichever way you do and we'll take it from there.

Hi Christina,

Yes, I will definitely keep it mind for Google Drive. I'll delete them as I go along. I sent you 6 videos. I tried to give you mostly some of the big picture stuff. I haven't sent the reincarnation stuff yet, but they are the most important: the first videos that I made when I understood what my mission was. By the way, this is my last incarnation before returning to Source, so I appreciate the information being in other places when I leave.

That's awesome Agbe! I feel that this is also my last incarnation, as per my vedic horoscope, which brings up the very subject of one of your videos, about Saturn. I am aware of the fallacies of astrology, especially western astrology (I've studied and practiced Indian astrology), and also because my friend, Brazilian author Domingos Yezzi, who's in contact with ETs since he was 8 years old (he's 85 now) has taught me a lot about our solar system and 13 planets in it! But, I still offer astral vedic reports (which are computerized) as I still need to make a living and also because the people ask me for them. I intend to stop offering vedic astrology reports as soon as I can replace it with another source of income, hopefully soon. My preferred, and most popular, service at the moment is hand analysis, which I find more organic and hence more precise. I'm creating a palmistry course and hoping for some source of income in it. I wish I didn't need money! If that was the case, I would do only these expositions all day long for the rest of my life here. I feel we have a lot to share on these subjects and with time I'm sure we will. ... On the astrology thing, I've actually made a posting explaining why I can no longer embrace vedic (or any other) astrology, which is a translation of a mind blowing information on this subject, exposing all the Vedic deities as self-appointed false gods, who are truly "demons" (soul harvesters) but, believe or not, people still ignore that and continue to ask me for vedic reports! ... We'll talk more as we move along. ... I'm downloading (and watching) now your Saturn video.

Bonjour Christina,

You're dead on about the money thing. It has made slaves out of all. For sure. Thank God I am going to do this for life. If I had the financial knowledge that I have now that I didn't learn in school, college nor graduate school, I would have been out a long time ago.

Thank you for taking interest in my work. You're going to help spread the message in the Universe. Certain frequencies, like ours, are denser than others. Here, not many people are listening

Bonjour Agbe! I love French, by the way! Took classes during my growing up in Brazil but I forgot most of what I learned because I never practiced. But I could understand quite a lot back then!

Indeed, money and many other things are seducements of enslavement, of which the events to come will free us all from it and many other evil done on this planet Earth and to humanity.

While listening to your video about Saturn, I was led to make some comments regarding the planet Saturn, which I recorded in a 30 minute video to share with you, and I just posted on my personal YouTube channel (just one of them ... I have 4 other channels). Please listen to them when you find the time and let me know what you think. Good afternoon Christina,

I got involved because of the risk-free investment aspect with very high interest rate. I have two policies and I am working on getting another two smaller ones. My goal is put in another four to five years in the system with my mainstream full time job and part-time jobs.

I am sorry about your situation. Believe you me, I can understand. If I hadn't picked teaching for the public schools, I am sure the system would have sacked me by now. As you may know, it's very difficult to fire a tenure teacher in America. In any case, I wish I had known about the different aspects of life insurance earlier. I would have at least 2 million dollars by 2018 or 2019 and would have definitely quite my job and focused on my main job of sharing information with the world. In any case, I am in it for another four or five years.

In terms of the business aspect, we really don't have to be that ambitious at first. If we can gather a team of 3 people total, and then those three people bring in three other people , we can make \$2-3K a month on passive income, in addition to the policy contracts we may sell. And even if we quit after a year, we still have to be paid. One of the marketing directors does presentations five to six times a week on Zoom. During the week, it's at 7 p.m. except on Thursday..On Saturdays, it's at 10 a.m. There is one tomorrow at 7 p.m. It usually lasts for about 40-45 minutes. Here's the link for tomorrow. at 7 p.m.(Friday): <https://zoom.us/meeting/tJYtf-mvpz0uGtLchkcFxSTh62ZxyPDoZmmZ/ics?icsToken=98tyKuCqrjMqHd2TtBmBRowQAoqgc-3xmCFbjbdnxnfuAAZLUTf-YLB4KqtPNNfq%C2%BF%C2%BFJoin>

In terms of potential clients, as long as they have a social security number, that's all that counts. In order for this to happen, you have to have a work visa. Agbe

Hi Agbe,

Thanks a lot for responding and your kindness. I'm a naturalized citizen of the United States. I wonder if the folks we sell the insurance to, need to also have a SSN (I'm afraid the answer is yes) and my audience is mostly in Brazil, so I won't be able to market to them. Or is it one of those things that you have to bring people in? I don't mean any offense (sincerely) but I hope it's not one of those things similar to pyramids.

Good evening Christina,

You're right, the answer is yes, because they have to have a U.S. social security number even if they are in Brazil. But, it's ok. We can work with people we come in contact with.. Yeah, I understand about the pyramid thing. In terms of industry and the corporate world, however, it works both ways. If you sell insurance policies, then you're just focused on the sales aspect. You're not dependent on anyone to be successful. However, if you're interested in the business aspect, then yes you benefit partially from the people you bring in. If you never recruit anyone, then you will still make money from commission. So, it depends on how you look at it. In the corporate world, the top people take most of the benefit. However, in the insurance world, the little guy can become the boss by working hard either selling and or recruiting more people into his/her business. And it is his or business, for we don't have bosses as independent agents. Let me know what you think after tomorrow night.

Have a good night.

Bon dia,

If you ever watch my latest video titled "MGTOW, SANDMAN, & NOLLAGIRL504," you'll see that I made an attempt to speak Portuguese at the beginning of the video. Actually, all I said was bonjour.

Your English is very good. I don't know if I could actually read in Portuguese if I were to get the books, but I notice that when I make the effort, I pick it up very quickly. I will definitely explore everything you said in the video you sent me. I just finished watching it. I need time to digest it. I am really not partial to much, except for the things I know for sure through intuition because it's definitely a rigged grand game we are playing. So, with that said, thank you for sharing. If you noticed, and I don't think you have watched all the videos related to Saturn, but in any case, the information I put out was based on the controlled opposition contradicting themselves. One thing for sure they (Fleurbrun, Sevan, and the other whose name I have forgotten for now) are absolutely no good. So, if we have been played and we are fooled to believe that Saturn is all bad, I have no problem correcting it. It's good in fact because I have been trying to dig deeper into this whole Saturn thing but the only information I could get was what was in this world. At the conscious mind level when I was surveying the Universe last year, I believe, I couldn't tell you which was Saturn and which was not. I am married to deepening my awareness. Now, I have to undercover this for myself somehow with what you provided. You know, when you know something at the intuitive level and if you're honest with yourself, you really know. Do you know what I mean. I remember Source telling me, "When you speak, you will speak 100 percent truth. You will be heard across the frequencies." So, in that spirit, let's get it. Perhaps taking your recommendations and checking out the information will jog my memory beyond the veil. You can never tell. I hope it does, for believing things simply without the intuitive back up/higher self knowing, is like a sort of religion. I have always known this to be true. Cool, let's explore Saturn.

I am sending you this message from my main account because it seems to work better or perhaps faster.

By the way, if you are going to check out the Zoom presentation tonight, use the same code. If it changes, then I will let you know.

Ok, thank you for being part of the team to making the Universe a better place.

Hi again Maria,

I just laughed about something you said earlier. It was when you said, "I think Peyote is not for me." My friend Jozay said the same thing because it was so freaken bitter to the taste when chewing it. He preferred Ayahuasca. I really don't care for the taste, but I liked the healing that came along with it. It was like a strong masculine ass-kicking that I needed to get the hell out of the Universe. I remember my Source Self saying over and over again while taking me through the reincarnation cycle, "Do you want to do it again?" After that night in Mexico, I was like, "Hell no." I think it gave me the strength to be even more serious and determined about my cleansing.

I remember returning from the desert on a horse with my guide. It was like the medicine help out just long enough for us to reach the village and then after getting off the horse, my guide was saying something when all of a sudden, the purge or the vomit came. The entity came pouring out like rain, and my guide took off. He was scared shit. You have to remember that we were in the middle of the street near the main grocery store in the village. In hindsight, it was really funny. I just thought I might share.

Boa tarde Agbe!

I love your response! And it's in line with what I expected! Indeed, we MUST use our intuition, which is that soundless voice within, that, to me, never lies! It always guides me into the right path and it screams, in the form of utter discomfort (a depression of sorts) if the path (or information) is not the right one for me. I've been this way since I was a child and used to advise my seamstress (now deceased) mother of people and things she should be careful of, and I was never wrong in those childlike assessments.

About Saturn, Mr. Domingos Yezzi is the most reliable source of extraterrestrial information I've found and I highly recommend his books! I have his first book posted on my website, in the form of exclusive content, and I will give you access to it so you can start there. The (translated) title of his first book is "What The Extraterrestrials Think and Expect of Us". His second book is entitled "The DNA of the Spirit and The Extraterrestrials" (also my own translation). The information is absolutely amazing and literally out of this world! I learned the truth of the Planets through him and I bet you'll be amazed. Indeed, Saturn, according to him and his contacts, is a benign planet inhabited by benign beings, highly evolved spiritually and technologically. We, humans, are the weed of this Solar System, along with the inhabitants of Pluto, and of Fesp, which is the worst of all the planets in our Solar System, being inhabited by troglodytes types

**EXHIBIT 5**<https://mail.google.com/mail/u/0/?ik=933bd2a617&view=pt&search=all&permthid=thread-f:1...>

of beings, cannibalizing each other, and to where some humans and the half-humans-half-lizards will go after the passage of Nibiru (soon to happen)! Our energy determines our next destination! I'm attaching an image (digitized by me) and hand written by Mr. Yezzi through channeled ET messages, which depicts this planetary transmigration.

Saturn has been stolen by religions to be used as a personification of evil, as I explained in the video commentary I made (which I'll filter off your info in a separate edition, just to share what I know about Saturn with others). Mercury as well has been used by the same evil religious leaders to create a personification of Buddha, which is actually a demon disguised as a saint. When they say the "devil" comes dressed as an "angel of light" they didn't lie! As they must abide to the laws of the Universe, which is based on Free Will. So, they have to tell us what they are doing, but they do it in perverted ways, and we accept as truth and that's our agreement with it, our acceptance of the lies, which is then perpetuated through eons, by our ignorant acceptance of them. Everything in ALL Earthly religions are lies and deceptions! NO exception! Even God has been portrayed (equalized) as the devil that has taken over "leadership" of our reality. Read here (in this my translation) who/what God really is, as Mr. Yezzi explains in the most precise and marvelous way I've seen! Another author (of spiritual teachings) that I highly recommend is Robert Shapiro. He also channels ETs and has shared the most amazing info, in English. I've been learning from him for a few years now and he's the only one, along with SETH, that has survived in my list of spiritual teachers. About the planets, in fact, per Mr. Yezzi, there are only these 3 that I mentioned (Terra, Pluto and Fesp), in this solar system (there are many other solar systems in the Universe) that are inhabited by very negative beings. All the others, including Sun, are all benign and highly positive. But the perfect Universe is a perfect balance of negative and positive energies. We can't have too much of either one, else it becomes imbalanced and thus "sick". This is what has happened to Earth, which is very much behind its evolution cycle, because the negative energies have been entrapped and forced here, so they can avoid their own destruction (as I mentioned in the video). But this is ending now, with the approach of Nibiru (Mr. Yezzi calls it Siderius, in his books, other author has called Hercolubus, the bible calls it Absinto [as they can't lie 100% and must tell us what they are doing], in Portuguese) and its passage will reset the planet with a new civilization as 90% of humanity will "perish" (been taken from here).

I'll share more as we move along. I'm excited to be part of this waking up journey! 😊

Oh wow!

I know it's too much to digest but I highly, highly, recommend the videos by Thomas Williams. If you listen to just one, you will feel like you need to listen to nothing else, as what he shares will literally leave you in a mental comatose of sorts! He explains ALL! Ayahuasca and where it truly takes us, is among his information. He also explains the source and roots of religions and civilizations, who the hybrid beings (members of our government all over this world) truly are and what they are doing and why. He has a weekly show and a must-listen series which I mirrored in my video library of my site. I haven't heard all his videos yet (which are video format of his podcasts) because they are too long (at least 2 hours each) and the information is hard to digest all at once because it truly numbs you! You can find them here, on my site, or directly in his YouTube channel, under his must-listen playlist.

This is 100% inconsistent with your own guidelines and takedown of previous videos for the exact same violation, which this one is just another repeat! This user keeps posting videos showing my age and my place of birth which are personally identifiable information of me and, per your own guidelines, and previous taken down, is indeed a violation!
